# Pendle 2.0 Balls

All our 2.0 balls are made from a new 16 panel construction increasing the area that is in contact with the foot for a cleaner strike.

The Enduro, Vortex and Elite are constructed using Thermo Fusion technology which uses high tension machine stitching and heat bonded sealed seams to create a consistent shape and reduce water intake. They also have embossed grooves ensuring consistent flight through the air and a soft touch foam backing for a premium feel and better control.

The Vortex and Elite match balls have a textured abrasion resistant surface making them highly durable and reliable throughout the season.
